

## IE 6.0 Download and Set-up

To use the Web Commerce e-commerce service, you need to:

- Gain access to the Internet
- Install Microsoft™ Internet Explorer 6.0™
- Configure Temporary Internet files in Internet Explorer.
- Configure AutoComplete in Internet Explorer.
- Enable JavaScript in Internet Explorer.

This tutorial provides detailed instructions to help you download and configure Internet Explorer 6.0 for use with **Web Commerce** application.

## **Downloading Internet Explorer 6.0**

Only Microsoft Internet Explorer 6 has the security features required to use the **Web Commerce** services. If you already have Internet access, you can use any Internet browser to download and install the most current version of IE, Internet Explorer 6.

To download IE 6 from the Microsoft web site:

- 1. Go to the Microsoft Download Search page at:
- http://www.microsoft.com/downloads/search.asp
  - 1. Select the latest version of Internet Explorer (e.g.: Internet Explorer 6) from the Product Name drop-down list.
  - 2. Select the operating system installed on your computer (e.g.: Windows 98) from the Operating System drop-down list.

	Search using:      Product C Category	C Keyword Search	Download Center Help
	Product Name		
	Internet Explorer 6		
	Operating System	Show Results for	(months)
		Imost Ketent (within 12	
	Sort By: 🛈 Title 🔿 Date		Find It
3. Click the <b>Find</b>	I It! Button. A list of downloadable files appe	ears.	
Downloads sorted by titl	e Internet Explorer 6 Windows 98		

Previous	2 Downloads 1-2 Display	yed		Next
Date	Title	Version	Size/Time (@ 28.8)	
20 Aug 2001	Internet Explorer 6	ie6	497 kb / 3min	
7 May 2001	Internet Explorer 6 Public Preview Blank Email Patch	IE6_PP	272 kb / 2min	
Previous	2 Downloads 1-2 Display	yed		Next

4. Click Internet Explorer 6 from the list of files. A new browser window opens, which will allow you to specify which language version of IE you want to download.

< <u>B</u> ack <u>N</u> ext > Cancel	Help

9. The installation process will automatically choose an available download site and commence the download.

The time required to download IE depends on the speed of your connection to the Internet. When IE has finished downloading, the wizard prompts you to restart your computer:

Windows Update: Internet Explorer and Internet Tools		
	Restart Computer	
	Please save your work and then close all applications before continuing.	
	Thank you for choosing Microsoft products!	
	If you need to reinstall the Windows Update in the future, run "ie6setup.exe" from the "C:\WINDOWS\Windows Update Setup Files" folder.	
	< Back Finish Cancel Help	

10. The next screen displays progress as the wizard downloads IE to your computer, installs it, and optimizes your system. At this point you will need to close all running applications and restart your computer.

# **Configuring Internet Explorer 6**

Before you can use IE to access Web Commerce, you must:

- Configure Temporary Internet Files
- Configure AutoComplete in Internet Explorer
- Enable JavaScript

#### To configure Temporary Internet files:

1. Open IE 6

- 2. Select Internet Options on the Tools menu. The Internet Options dialog box appears
- 3. Select the General tab

Internet Options
General Security Content Connections Programs Advanced
Home page
You can change which page to use for your home page. Address: http://www.get2connect.net
Use <u>Current</u> Use <u>D</u> efault Use <u>B</u> lank
Temporary Internet files Pages you view on the Internet are stored in a special folder for quick viewing later.
Delete <u>Files</u> <u>Settings</u>
History
The History folder contains links to pages you've visited, for quick access to recently viewed pages.
Days to keep pages in history: 20 🚍 Clear History
Colors Fonts Languages Accessibility
OK Cancel Apply

4. In the **Temporary Internet files** section of the General tab, click the **Settings**...button to display the Settings dialog.

Settings	? ×
۵	Check for newer versions of stored pages: © Every visit to the page © Every time you <u>s</u> tart Internet Explorer © Automatically © Never

<u>M</u> o	ve Folder View Dbjects
	OK Cancel

5. Under Check for newer versions of stored pages, select <u>Every visit to the page</u>.

6. Click OK to close the Settings dialog box.

#### To configure AutoComplete:

Internet Options			
General Security Content Connections Programs Advanced			
Content Advisor Ratings help you control the Internet content that can be viewed on this computer.			
Certificates			
Use certificates to positively identify yourself, certification authorities, and publishers.			
<u>C</u> ertificates Pu <u>b</u> lishers			
Personal information			
AutoComplete stores previous entries AutoComplete			
Microsoft Profile Assistant stores your My Profile			
OK Cancel Apply			

- 1. Open IE 6.
- 2. Select Internet Options on the Tools menu. The Internet options dialogue box appears.
- 3. Select the **Content** tab.
- 4. Click the AutoComplete ...button to display the AutoComplete Settings dialog.

### To enable Cookies and JavaScript:

1. Select the **Security** tab in the Internet Options dialogue box. Select the **Internet** Web content zone, then click the **Custom Level...**button. The Security Settings dialog will appear.

2. Scroll down to the Cookies section of the dialog and enable Cookie settings as illustrated.

	Security Settings	×
	<u>S</u> ettings:	
\`.	<ul> <li>Cookies</li> <li>Allow cookies that are stored on your computer</li> <li>Disable</li> <li>Enable</li> <li>Prompt</li> <li>Allow per-session cookies (not stored)</li> <li>Disable</li> <li>Enable</li> <li>Prompt</li> <li>Downloads</li> <li>File download</li> <li>Disable</li> <li>Enable</li> <li>Enable</li> <li>Enable</li> <li>Enable</li> <li>Townloads</li> <li>Enable</li> <li>Enable</li> </ul>	
	Reset custom settings	
	Reset to: Medium Reset	
	OK Cancel	

3. Scroll down to the Scripting section of the dialog and enable JavaScript as illustrated. Click OK to save the new settings and close the dialog. Click OK again to close the Internet Options dialog

Security Settings ? 🗙

#### To enable Trusted Relationships:

1. Select the **Security** tab in the Internet Options dialogue box. Select the **Trusted Sites**, then click the **Sites...**button. The Trusted sites dialog will appear.

 Type in the URL https://net1.ecwebworks.com, then click the Add button. The following URL's should all be added: https://inovis.com

https://www.get2connect.net

### That's It!

You are now ready to use Internet Explorer 6 to access the Web Commerce to do business.
